

June 30, 1999

**UNIMADE METALS INC.
115 PATERSON STREET
HILLSDALE, NJ 07642**

ATTN: Mr. Nicholas Magnapera, Quality/ ISO Compliance Director
SUBJECT: Assessment of GEC Marconi Hazeltine Certified Supplier Program

An assessment was performed on your facility on June 29, 1999 by our Quality Assurance Source Representative Fred Gnapinski to determine the degree of compliance with GEC Marconi Hazeltine's Supplier Certification Program (Ref. Supplier Certification Procedure - E7007).

The results indicate that your facility meets or exceeds the requirements for Certification. Your company will therefore be/or continue to be listed as a GEC-Marconi Hazeltine **(GMH) CERTIFIED SUPPLIER**. Should there be a material change in your operation or in the management personnel involved with this program, the GMH Buyer and Procurement Quality Assurance Dept. must be notified so that the need for a new survey may be determined and scheduled.

GMH, with suitable notification to your company, reserves the right to:

1. Conduct periodic audits of your facility.
2. Re-survey your facility at any time.
3. Void this approval for cause and remove your company from the Certified Supplier Program.
